HOW TO CITE THIS VOLUME

Proceedings of the 6th International Conference on Sustainable Energy Technologies (SET2007), Santiago, Chile, 5 to 7 September 2007. Caravel Press. ISBN 978-1-995850-09-2. <https://doi.org/10.65582/set.v6>

COPYRIGHT

© 2007 Copyright WSSET. Free to read, download, print and share, unaltered and for non-commercial purposes, provided the authors, the paper and the proceedings are credited. Any other use, including commercial use or adaptation, needs written permission: write to set@caravelpress.com.

PEER REVIEW

Every paper in this volume was peer reviewed double-anonymously before it was accepted: the reviewers were not told who the authors were, and the authors were not told who the reviewers were.

CONTENTS

Contents

BOOK 1

Ecological Buildings and Sustainable Technologies	9
Riffat, S.B. https://doi.org/10.65582/set.2007.001	
Harnessing Solar Energy with Bi-directional Thermodiodes	10
Chun, W., Kim, J.T. and Chen, K. https://doi.org/10.65582/set.2007.002	
Alternative Cooling Techniques for Buildings	19
Santamouris, M. https://doi.org/10.65582/set.2007.003	
Direct Methanol Fuel Cell – A Sustainable Energy Technology	25
Zhao, T. https://doi.org/10.65582/set.2007.004	
The HSWSO Model for Sizing Hybrid Solar-Wind Power Generation Systems and a Case Study	27
Lu, L. https://doi.org/10.65582/set.2007.005	
Working Characteristics of Bubble Pump in Solar Heating System	34
Park, G.T., Li, X., Jeong, H.M., Chung, H.S., Lee, K.Y. and Lee, J.S. https://doi.org/10.65582/set.2007.006	
Pressure Measurement and CFD Analysis on the Snubber of Reciprocating Hydrogen Compressor	41
Lee, G., Akbar, W.A., Jeong, H. and Chung, H. https://doi.org/10.65582/set.2007.007	
The Investment Value of Sustainable Building Design	49
Schepp F., F.F. https://doi.org/10.65582/set.2007.008	
Photovoltaics Integration in Chile	55
Porter P., M.A. https://doi.org/10.65582/set.2007.009	
Investigation of the Performance of a Low-cost Fibre Air-to-Air Heat/Mass Exchanger	61
Liu, S., Riffat, S. and Zhao, X. https://doi.org/10.65582/set.2007.010	
Performance Prediction of Fiber Optic Concentrators for Natural Lighting	68
Han, H., Dutton, S., Riffat, S. and Kim, J.T. https://doi.org/10.65582/set.2007.011	
The Integration of Solar Technologies within the UK	73
Clarke, I.T. and Adamson, D.W. https://doi.org/10.65582/set.2007.012	

Study on the energy performance of an advanced office building in Japan	79
Momota, M., Inoue, T., Kawase, T., Nohara, F., Honma, M. and Yokota, T. https://doi.org/10.65582/set.2007.013	
Multivariate Statistical Analysis for the Assessment of Potential Energy Savings in Low-Density Urban Building Stocks in the City of Mendoza, Argentina	85
Arboit, M., Diblasi, Á. and de Rosa, C. https://doi.org/10.65582/set.2007.014	
Performance evaluation of bubble pump used in a passive solar water heater system	92
Li, X., Park, G., Chung, H. and Jeong, H. https://doi.org/10.65582/set.2007.015	
Problems and Hurdles in Designing a Nonglass Solar Vacuum Tube Collector	98
Hyun, J., Oh, S.J., Kim, N. and Chun, W. https://doi.org/10.65582/set.2007.016	
Comparative study between a proposed architectural prototype and heritage buildings to a hot-arid climate. The case of San Lorenzo de Tarapacá.	103
Bravo, S. and Silva, Á. https://doi.org/10.65582/set.2007.017	
Evaluation of the Potential of a Solar Louvre Collector System for Building Heating and Cooling by Means of Computer Simulation	109
Palmero-Marrero, A.I. and Oliveira, A.C. https://doi.org/10.65582/set.2007.018	
Sustainable architecture and eco-building design retrofit: Reviewing the thermal performance estimations after completion of a building.	115
Del Rio, J. https://doi.org/10.65582/set.2007.019	
The Use of Phase-Change-Material in Facades	121
Saleh Pascha, K. https://doi.org/10.65582/set.2007.020	
Energetic and Environmental Impacts of the Urban Sprawl on Productive Oasis Land Around Cities in Arid Zones. The Case of Mendoza's Metropolitan Area, in Argentina.	127
Mesa, A., Arboit, M. and de Rosa, C. https://doi.org/10.65582/set.2007.021	
Development of special interest tourism in natural parks using coordinated mobile sustainable spaces for exploration.	134
Jerez, H., Moraes, C. and Calvo Soto, P. https://doi.org/10.65582/set.2007.022	
Case Study: Method of Investigation of a Commercial Building's Comfort Levels: Highlighting Energy Efficiency Concerns	140
Smith, S.T., Wu, S. and Riffat, S. https://doi.org/10.65582/set.2007.023	
Investigation on the Operating Performance of Hybrid Ground Coupled Heat Pump Systems: a Case Study in Hong Kong	146
Cui, P., Yang, H. and Fang, Z. https://doi.org/10.65582/set.2007.024	

Energy Efficient Strategies for Office Buildings in a Mediterranean Climate. The case of Santiago de Chile	153
Bustamante Gómez, W. https://doi.org/10.65582/set.2007.025	
Trombe Wall Revisited for Southern Hemisphere. Experimental Analysis of Energy Supply For Room Heating by Vented Trombe Wall	159
Sarmiento, P., Hormazábal, N. and Peña, M. https://doi.org/10.65582/set.2007.026	
Design optimization of a suspended glazed corridor in Milan	165
Brunetti, G.L. https://doi.org/10.65582/set.2007.027	
Reinforced Polyester Roofs and Natural Cooling Strategies	171
Ortiz Arango, E., Rincón, C.A. and Adarve, A. https://doi.org/10.65582/set.2007.028	
Methodological Procedures for Fixed Points Measurements in Urban Areas	177
Costa, A.D., Labaki, L. and Araújo, V. https://doi.org/10.65582/set.2007.029	
Water and green politics for a bio-eco approach to urban design	184
Bottero, M. https://doi.org/10.65582/set.2007.030	
Water of camanchacas and sustainable Building in the Atacama Desert: Project for the degree School of ArchitectureNorth Catholic University Antofagasta, Chile	189
Guerra Ramirez, J. and Games Diaz, C. https://doi.org/10.65582/set.2007.031	
Simulation assessment of bioclimatic strategies to improve thermal behaviour of a lightweight building prototype	194
Picción, A., Camacho, M., López, M.N. and Milicua, S. https://doi.org/10.65582/set.2007.032	
The Role of Analytical Tools in the Design Process of Sustainable Buildings	200
Trebilcock, M. https://doi.org/10.65582/set.2007.033	
Empirical Studies and Laboratory Investigations Promote Environmental Design Knowledge in Architectural Schools	206
Elseragy, A.B. https://doi.org/10.65582/set.2007.034	
Climate, Urban Configuration and Thermal Comfort in Outdoors Spaces. The Case of Mendoza's City, Argentina.	213
Correa, E.N., De Rosa, C. and Lesino, G. https://doi.org/10.65582/set.2007.035	
Height Extrapolation of Wind Speed, Experimental and Comparative Analysis	220
Naveas Hogtert, C. https://doi.org/10.65582/set.2007.036	

Numerical and experimental analysis on “Double Light Pipe”, a new system for daylight distribution in interior spaces. Baroncini, C., Chella, F. and Zazzini, P. https://doi.org/10.65582/set.2007.037	226
Natural light in new underground areas of a historical building: an example of application of double light pipes in preservation of the architectonic heritage. Chella, F., Gentile, E. and Zazzini, P. https://doi.org/10.65582/set.2007.038	232
Development and Experimental Evaluation of Indirect Evaporative Cooling System Employing a Psychometric Energy Core System Elzaidabi, A.A., Omer, S.A. and Riffat, S.B. https://doi.org/10.65582/set.2007.039	238
An Effective Way for Sustainable Water Resource in China- Seawater Desalination Shen, S. and Yang, L. https://doi.org/10.65582/set.2007.040	243
Building Integrated Photo-Piezoelectric Cells for Multi-Source Energy Conversion Rodríguez-Kuri, S., Gan, G. and Riffat, S.B. https://doi.org/10.65582/set.2007.041	250
The Characteristic of Propane-Ethane as Refrigerant in the Cascade Refrigeration System Kim, P.H., Djajadiwinata, E., Jeong, H., Chung, H. and Kim, C. https://doi.org/10.65582/set.2007.042	255
Investigation of a novel Thermoelectric Evaporative Cooling Tower System Kimsunthorn, J., Jiang, L., Gillott, M. and Riffat, S. https://doi.org/10.65582/set.2007.043	262
Natural Heater Construction Grala da Cunha, E., Turell, L. and De Negri, L. https://doi.org/10.65582/set.2007.044	268
Presentation of a Novel Solar Air Conditioning System Using a Hybrid Ejector/Exchanger Unit Oliveira, A.C., Riffat, S.B., Omer, S. and Varga, S. https://doi.org/10.65582/set.2007.045	274
Hydrogen production from rich combustion in porous media of methane and propane Toledo, M., Bubnovich, V., Saveliev, A. and Kennedy, L. https://doi.org/10.65582/set.2007.046	280
Experimental Investigation of a Side-Emitting Optical Fibre Mop Fan for Air Cleaning Ma, X., Birnie, M., Riffat, S.B. and Gillott, M. https://doi.org/10.65582/set.2007.047	287
California Experience in Energy Efficiency: Lessons for Chile Sauma, E.E. https://doi.org/10.65582/set.2007.048	294

A Decision Support System applied to the Italian national allocation plan for the reduction of the GHGs emissions	299
Cellura, M., Ardente, F., Beccali, G., Fontana, M. and Marvuglia, A. https://doi.org/10.65582/set.2007.049	
Including sustainable criteria in territorial energy plans: an application to the building sector in Sicily	305
La Gennusa, M., Lascari, G., Rizzo, G. and Scaccianoce, G. https://doi.org/10.65582/set.2007.050	
Comparison of Cost – Profit in relation to the hydrothermal characteristics of the outer walls of the building in Córdoba, Argentina	312
Lambertucci, R. and Riondet, V. https://doi.org/10.65582/set.2007.051	
BREEAM Domestic and International Application	318
Burrows, V.K. https://doi.org/10.65582/set.2007.052	
Is it suitable a tool for the energy certification in Chile? An analytical point of view in the context of worldwide building regulations.	323
Bustamante Gómez, W., Encinas Pino, F. and Saleh Pascha, K. https://doi.org/10.65582/set.2007.053	
The Role of Nuclear Energy in Sustainable Development	329
Vergara, J. and Escobar, R. https://doi.org/10.65582/set.2007.054	
Approach to the wall of Adobe from its thickness, structures and cost	336
Sotta Benaprés, F. https://doi.org/10.65582/set.2007.055	
Design strategies for thermal improvements in social housing: Applications in the town of San Lorenzo de Tarapacá, Chile.	342
Devilat, B. and Lanuza, F. https://doi.org/10.65582/set.2007.056	
Strategies of Power Efficiency for the rural social house of the coastal desert of the Region of Antofagasta: Project factory IX Architecture and Energy	348
Guerra Ramirez, J.N., Bello Matas, P., Hurtado Durán, H. and Maldonado Vega, C. https://doi.org/10.65582/set.2007.057	
Natural cooling in the tropics and user responses SET 2007	352
